

Circle the shapes that are triangles.

Name:

**Circle the triangles.**

**Name:** \_\_\_\_\_

A geometric diagram consisting of two regions, labeled 14 and 15, separated by a curved boundary. Region 14 is on the left and is bounded by a concave curve on its left side and a straight line segment on its right side. Region 15 is on the right and is bounded by a straight line segment on its left side and a concave curve on its right side. The two regions meet at a point where the straight line segments intersect. The labels 14 and 15 are placed within their respective regions.
