

Name: _____

Date: _____

Essential Question: How do I represent and interpret data?

3.MD.4

Using the caterpillars on the next page, measure each caterpillar to the nearest $\frac{1}{2}$ inch. Plot the data on the line plot below.

Paper Caterpillar Lengths
x = 1 caterpillar

Length of Caterpillars
(To the nearest $\frac{1}{2}$ inch)

Explain how you created your caterpillar line plot.

Name: _____

Date: _____

Measure the length of the caterpillars to the nearest $\frac{1}{2}$ inch and use this information to answer Question 11
