

Write  $>$ ,  $<$ , or  $=$  in the circle to compare the measurements.

$3\frac{1}{2}$  hours

200 minutes

3 quarts

6 cups

5 kilometers

5,000 meters

35 feet

11 yards

Choose two of your solutions above and explain your thinking.

**Not yet:** Student shows evidence of misunderstanding, incorrect concept or procedure

**Got It:** Student essentially understands the target concept.

**1 Unsatisfactory:  
Little  
Accomplishment**

The task is attempted and some mathematical effort is made. There may be fragments of accomplishment but little or no success. Further teaching is required.

**2 Marginal:  
Partial  
Accomplishment**

Part of the task is accomplished, but there is lack of evidence of understanding or evidence of not understanding. Further teaching is required.

**3 Proficient:  
Substantial  
Accomplishment**

Student could work to full accomplishment with minimal feedback from teacher. Errors are minor. Teacher is confident that understanding is adequate to accomplish the objective with minimal assistance.

**4 Excellent:  
Full  
Accomplishment**

Strategy and execution meet the content, process, and qualitative demands of the task or concept. Student can communicate ideas. May have minor errors that do not impact the mathematics.
